BRONCHITIS & ASTHMA

Cured by Veno's, the All-British Remedy

"Veno's is the best thing I have ever found for cough and asthma," says Mr. R. Thomas, of Giffach, near Bridgend, Glam., a man who had suffered for forty years from Asthmatic cough. He continues:—"Often I could not work for shortness of breath and wheezing, and I was always coughing and spitting up phlegm. Sometimes, when the attacks were on, I dared not go to bed for fear of choking. I tried many cough preparations and had medical advice, but I never found any real, lasting benefit until I commenced taking Veno's Lightning Cough Cure. I was in the middle of a very bad attack, and Veno's relieved me as nothing else had ever done. Almost from the first my breathing became easier, and the cough went easy, and now at the present time I am in better health than ever in my life. I actually think I am cured, and it is all due to Veno's Lightning Cough Cure."

Mr. Thomas,

Bridgend.

Don't Take Opium Mixtures.—Opium acts by suppressing the phlegm; Veno's Lightning Cough Cure acts by discharging the phlegm—quite easily. Veno's clears all the air passages, brings health to the breathing organs; opium cough mixtures leave the air passages filled with phlegm to sow the seeds of deadlier maladies. Never take any substitute for Veno's Lightning Cough Cure.

VENO'S LIGHTNING COUGH CURE

ARE YOU A Strong Vital Man ?

NO MAN SHOULD BE WEAK. No man should suffer from the loss of that Vitality which renders life worth living. No man should allow himself to become less a man than Nature intended him. No man should suffer when there is at hand a Certain Cure for his weakness. Most of the weaknesses from which men suffer are due to an early loss of Nature's reserve power. You need not suffer from this. YOU CAN be restored. The very element which you have lost you CAN get back, and you may be as happy as any man that lives.

If you have wrecked your Nerves by OVERWORK or WORRY, drained away your Strength by bad habits or dissipation, or SAPPED your vital forces by EXCESSES,

IT IS TIME FOR YOU TO STOP.

No man can afford to be reckless, force Nature to undue effort, ruin his Constitution, or violate the laws governing life; this invariably results in disaster or a complete Nervous Breakdown and a

GIVING OUT OF THE VITAL FORCES

long before the average period. There's no room to-day for worn-out, weak, or broken-down men. If you feel played out, weak and shaky, you're not fit for the battle of life.

KNOWLEDGE IS POWER, and every man who would be warned in time should take heed NOW. Send 4d. for my Book on

"HOW TO PRESERVE STRENGTH AND RETAIN THE POWERS,"

and you will find it the most profitable of all literature you now possess. Thousands who have read it acclaim it to be "worth its weight in gold."

It will teach you more in fifteen minutes than you will gain in years by experience. It is a valuable, instructive, and interesting treatise on Generative Weakness, and the Cause and Cure of Nervous Breakdown, Mental Exhaustion, Depression of Spirits, General Weakness, Waste of Vitality, Premature Decline, and Loss of Power in Men. The most popular and practical treatise published on the Laws Governing Life, with Special Chapters on Generative Weakness, Flagging of the Powers, and Practical Observations on Marriage.

Contains valuable remarks to Weak and Nervous Men on how to preserve the health, regain Strength and restore the Failing Energies and Powers when lost.

To the inexperienced, the married, or those contemplating marriage, no other work contains so much helpful or sensible advice, or will prove so interesting and instructive to those who desire to preserve their Strength, build up the whole Nervous System, restore the powers to advanced age, or fit themselves for Marriage. It will be sent in a plain sealed envelope to any address on receipt of Four Penny Stamps.

DON'T WEAR A TORTURE TRUSS.

GET YOUR RUPTURE CURED.

The annoyance and discomfort of wearing common Trusses, or trusses with Blistering Rubber Pads, which entail constant danger of strangulation, to say nothing of the time lost from work owing to breakage of the truss and periodical slipping of the rupture, can be entirely overcome.

The quick cure of your rupture in the privacy of your own home without the slightest inconvenience, pain or danger is now possible, by the marvellous method perfected by Wm. S. Rice, the famous Rupture Specialist of London.

A GENUINE HOME-CURE WITHOUT OPERATION.

By this method of cure, the process of restoration takes place as in cases where the knife is used, but without any of the dangers of an operation.

No truss alone, however much may be claimed for it, can do this. No truss is more than a mechanical appliance—purely mechanical in its action—and it has no curative properties. The Rice Method has been proved over and over again to possess the merit of curing ruptures where all trusses have failed, and where even the operation has been worse than a failure.

FOR THE IMMEDIATE RELIEF

and benefit of rupture sufferers, arrangements have been made whereby a Complete Demonstration of the curative powers of the Rice Method will be sent gratis and post free, together with full information as to how to go about the curing of your rupture.

Cut out the form below, write your name and address on it, and send it to-day to the address given.

will send a book containing information that ought to be known by every intelligent person. There is so much that the Doctor must be able to impart, which in fact can only be told in a confidential way, and this book has entered 200,000 homes to bring happiness to those who have studied it. The information contained in this book ought to be known to everybody; it will not harm the unmarried to read. The book is conveniently divided into twelve chapters. The first chapter treats of when a girl becomes a woman. The second chapter treats of marriage from a doctor's standpoint; points out the best age for marriage, and who should have children, and furnishes useful information that one can ordinarily get only from an intelligent doctor. The third chapter treats of the marriage of blood relations; and condemns such marriages as a rule. Chapter four treats of the signs of motherhood. The fifth chapter tells how a woman should live during that state. The sixth chapter treats of mishaps and how to avoid them. The seventh chapter treats of maternal impressions, and shows that birthmarks are due to poor health. The eighth chapter, on easy confinements. Not in pain and trouble; the hygienic physician says that confinements can be made comparatively easy if rules are obeyed; rules are given. The ninth chapter treats of the proper management until baby is born. The tenth chapter tells how to treat the mother until she is up and about again. The eleventh chapter treats of sterility; gives the main causes and how these may be overcome. The last chapter treats of the "change," a most important article for all women over forty. This book is full of useful information, and goes thoroughly into matters. Knowledge is power and the means of attaining happiness. Over 200,000 copies have already been sold, and it is by far the best book ever written. The book can be had in envelope from

COLUMBIA UNIVERSITY

ADDRESS TO OUR READERS.

In assuming the editorial of this now world-famed publication I shall endeavour, as far as possible, to uphold the science of Astrology by predictions as definite and closely-timed as it is possible to make them. Of the possibility of scientific prediction there can be no doubt whatsoever; it is only a question as to what degree of proficiency can be attempted within the scope of a popular annual. My readers must judge of this for themselves.

The present year will witness the apotheosis of the planet Mars—the classical God of War. The year will be continuous of the Great War, and the red planet being now regnant in Leo, the disturbers of the world's peace will carry their depredations to the West and the North-west. France is aflame and overrun with the engines of war. Beneath its hallowed soil, made sacred by the blood of a million sacrifices to Justice and Freedom, there lurks a mine of intrigue and seething discontent. Dangers threaten from within and without. The British Lion is rampant, thoroughly incensed and mightily furious, and now puts forth all its strength. Holland is laid waste and devastated. All the world suffers in that great travail which shall hereafter bring forth the Manchild who shall shepherd the people with a crook, when "the Lion and the Lamb shall lie down together and a little Child shall lead them." Britain calls upon all men to have faith and give of their best gladly for the sake of that World Peace for which we are striving. The patience of saints and martyrs, the courage of heroes has never been needed more than now. But we shall go on, and on, until the victory is ours. The Allies will prevail, for so it is written. But there are times when even the stoutest hearts will be shaken. The Black Eagle is fighting for her eyrie no less than the Lion for her cubs.—"SEPHARIAL."

Geo. Wilde's Annual Announcement.

TEST HIS SKILL—THE RESULT WILL ASTONISH YOU!

The foundation and basis of Astrology are the Aspects. The old Astrology (including the aspects suggested by Kepler) contained only a dozen aspects, and in consequence not 25 per cent. of the predictions came true. For four thousand years Astrology has been unprogressive. Since the days of Kepler (1571 to 1630) to the present day no new aspects have been discovered. Mr. Wilde has discovered and verified (after 20 years' study and investigation) 29 new aspects; that is to say, he has added to the meagre number of 12 aspects, which are now in use amongst astrologers, 29 more which reduce Astrology to an EXACT SCIENCE.

Mr. Wilde guarantees ABSOLUTE ACCURACY OF ALL HIS CALCULATIONS of Star Courses, and he will undertake TO RETURN ANY FEE if it can be proved that his Mathematical Work is not correct.

The client must demand one of three things, either accuracy, the return of the fee paid, or he must denounce the professor as an impostor.

Predictions—

The year opens under adverse conditions. The planet Mars is stationary in the sign Virgo and Turkey will suffer heavy reverses, but will renew the attack from unexpected quarters. About the 5th the fiscal position of Great Britain will be seriously represented. A huge deficit will be announced and great losses of shipping will be reported. From the 12th to the 16th advantageous terms are proffered and a useful alliance may be formed. Portugal now enters into a compact and terms of Peace are discussed. The Colonies do well. But about the 17th excitement becomes tense in Russia and diplomatic affairs are hindered. On the 23rd there are signs of treachery and subterfuge. Our near Ally will suffer from internal intrigues and, as we now stand to lose some prestige among our Allies unless great care be taken by the Ministry, it may be said that a great danger threatens the nation. This is apparently the result of financial and Ministerial strain taking place about the 16th, when the Government will have a hard passage in Finance. Stock and Share values depreciate considerably all through the month, but especially at the beginning and end. About the 6th Russia is greatly affected by secret machinations and covert attacks. In France affairs go badly this month.

Predictions—

Early in the month there are signs of unrest and possible insurrection in some branch of the National Services. It is greatly to be hoped that Engineers will not endanger the national welfare at this time. The eclipse of the Sun on the 3rd is bad for Russia, and threatens serious reversals in March and April. That long-suffering and heroic country will meet with too little of its rightful deserts. On the 18th of this month our country is threatened with incendiary attacks and violent surprises. It behoves the Home Defence Service to be on the alert. Great fires are threatened by secret enemies. The danger is from the 16th to 19th. On the 20th there will be serious financial strain on our Exchequer. On the 27th there will be some trouble with a fractious section of the community. A strike is threatened and the Government will have a difficult task to placate the malcontents. From the 4th to the 13th adverse conditions obtain in the political world, and the Stock Markets will reflect this by a sharp depreciation in values. Affairs appear to turn badly against Russia, and between the dates mentioned a series of reverses and complications are threatened.

Predictions—

About the 6th the financial crisis appears to be surmounted. But the 8th brings signs of defection among our Allies, but is quickly followed by a bright diplomatic stroke, and a Treaty of some significance is formed about the 12th. From the 12th to the 16th will be bright days and the political horizon will improve vastly. On the 15th, however, some attack is made upon the Government and the secret enemies of the country will prove themselves dangerously effectual. About the 19th there are some murmurings heard again among the workers and through the Service lines. The conjunction of Mercury and Uranus on the 5th will distress Russia with further diplomatic troubles. Great Britain goes forward under the most benefic influences. Saturn's stationary position in the sign Cancer now brings a period of stress and privation upon Holland. Mars stationary in the sign Leo brings France into a difficult position, when reprisals of the most violent kind will be contemplated. On the 6th of this month the planet Mars transits the place of the recent solar eclipse and stirs up Russia to acts of violence which are destined to end badly. An eclipse of the Moon in this degree of Aquarius in 1664 was followed by the Great Plague and Fire of London.

"Anyone with 'a liver' cannot do better than try a few bottles of Mother Seigel's Syrup, the 'Great Liver Invigorator.'"
So speaks a grateful user of the remedy.

Predictions—

On the 6th Mars again transits the place of the last solar eclipse and stirs up Russia by a series of heavy blows. At the same time there are signs of serious loss to an Ally and defections among our supporters. On the 1st there will be reports of death upon the high seas and great loss of life and shipping. On the 2nd we are effective in our efforts in foreign parts, especially in France, and victories are scored to our credit. The 5th brings financial strain and difficulties in the Exchequer. The Government is severely heckled about the 18th and is in danger of an adverse vote. St. George's Day works out badly for our interests abroad, and there is danger of a submarine attack and consequent loss on the high seas. The 26th shows changes in the Government and a prominence of the Fiscal question in the House. Nevertheless the conjunction of the Sun with Jupiter in Aries on the 1st will advance the interests of Great Britain, and its successive policy appears likely to be effective for good. About the 20th there are adverse conditions from foreign sources and the machinations of the enemy will be successful about the 20th. In the earlier part of the month the stirring up of the war fever in Russia is apt to lead to further complications.

MOTHER SEIGEL'S SYRUP

These complaints—so common amongst middle-aged people—show that something is amiss with the stomach, the liver, or the bowels. Restore these important organs to natural healthy activity by taking Mother Seigel's Syrup after meals, and your flatulence, acidity, and heartburn will disappear.

Predictions—

The outbreak of a pustular disease is indicated early this month, such being imported from France by the soldiery. About the 2nd of the month there are signs of serious hurt to our fighting forces abroad, although the Services will gain honours and acquit themselves well. In the second week there will be some strike or dislocation of railway and electrical work. Our means of communication will suffer, and the Government will be called upon to adjust matters speedily. Some destruction of waterways and bridges, electric communications, telegraphs, etc., appears to be shown. About the 22nd we shall have success in our Naval enterprises, but some five days later, near the 27th, there are indications of further great disasters and loss of life upon the high seas. Violent storms will be experienced about the 12th, and there will result some shipwrecks on the high seas and also the breaking down of communications, bridges, telegraphs, etc. Stocks fall heavy during the middle of the month in response to adverse conditions in France and Russia. Mercury stationary in Gemini will produce great activities in the Metropolis and unusual Press enterprise. Saturn's stay in Cancer can bring nothing but trouble and perplexity upon the rulers of Holland and China. France is the victim of seditious movements.

Predictions—

Early in the month there are signs of Press comment and agitation in regard to land values, crops, and farming interests generally. Some relief measures will be formulated. From the 3rd to the 9th of this month the arms of Great Britain will be greatly effective and a combination of favourable circumstances will enhance our prestige. The Exchequer will be competent; there will be victories and successful naval operations. France will figure well at this time, and also Russia. The late troubles with railways and engineers will be smoothed over, and affairs of State will progress satisfactorily. About the 13th, however, there are signs of further depredations by submarines, and enemy attacks from ambush and sedition of the most unscrupulous sort will tend to embarrass the Government and endanger the Entente. Near the end of the third week there will be much mortality from contagious and infectious diseases; typhoid, smallpox, and other dread scourges will decimate the people, especially attacking the young. But the 21st shows relief measures and benefits conferred on the younger generation. On the 27th there will be acrimonious discussion in which probably America will be involved, and a quarrel is in the making.

Predictions—

Success attends our arms in foreign parts, and especially in Turkish territory, about the 5th. Naval affairs are progressive and our activities are effective. About the 10th of the month a great bereavement is suffered by the nation and there are signs of losses at sea. I judge that a great disaster is threatened, and in this the Dutch may have a part. About the 13th there are indications of success around our coasts and cruising vessels will make effective attack. The 20th is a critical date for diplomatic affairs, and at that time it appears that some violent attacks will be made upon us, and Treaties will be torn to shreds by an impulsive and short-sighted Ministry. The 23rd develops signs of loss in the Colonies. At this time sports and entertainments will suffer a set-back. The 25th shows signs of treachery leading to fatal results. In France there are seditious movements afoot which may have the gravest issues. The eclipse of the Moon on the 15th is evil for India and New Zealand and Mexico. The conjunction of Saturn with the Sun on the 12th will bring disasters to Holland. The middle of the month will be marked by heavy rainfall and inundations will affect some parts of the country. The solar eclipse which occurs on the 30th will prove later to be fateful to France.

Predictions—

The 5th of the month develops favourable influences tending to agreement on points of diplomatic controversy, and Government "conversations" will be fruitful of good results. The attitude of the United States is now more pacific and amenable. The 6th shows indications of a wide-spread calamity which affects sea-going people and affects the public with deep sorrow. The 13th is a date of evil omen for all transport and railway concerns. It is possible that unrest and dissatisfaction will affect the workers and tend to a crisis, and even a strike. The 18th is date of treacheries and incendiary activity. Accidents due to indecision and mistakes will cause trouble and may prove fatal. Deaths occur from syncope and heart failure. The 24th shows advantages to the Colonies and benefits to theatres and places of public amusement. Festivities and celebrations occur. Good fortune accrues to the Mother Country through her sons. Great Britain is triumphant. About the 27th there will be further fatalities upon the high seas. At the same time a strike occurs among the engineers or railway operatives. The opposition of the Sun to Uranus on the 10th is evil for the fortunes of Russia, where internal troubles are likely to arise. Jupiter stationary is beneficial to England at the end of the month.

WHY MOTHER SEIGEL'S SYRUP

The real test of the value of any medicine is its ability to relieve or remedy the ailments for which it is intended. Has Mother Seigel's Syrup answered this test? Well, for 47 years it has been before the public, and is still the world's foremost digestive remedy.

HAS STOOD THE TEST OF TIME.

SEPTEMBER.

Average Rainfall 24 in. on 12 days. Add for Bristol 5h. 15m., Hull 4h. 31m., Leith 0h. 19m., and for Dublin sub. 2h. 46m., Greenock 1h. 50m., Liverpool 2h. 35m.

Predictions—

The early days of the month are fraught with the most sinister influences. War will stretch its flaming sword far and wide. The 5th to 7th is a period critical in the highest degree to the interests of Turkey, and that country will now show an offensive which cannot be denied. Reprisals will follow swiftly, and both on land and on the high seas there will be desperate engagements. More than one of the great Powers will be hard hit by the configurations of the celestial bodies at this time, proving that the war against war was one of the most forlorn objectives to which the mind of man has formulated. It is a false prophet that crieth "Peace, Peace," where there is no peace. Until the 13th the signs are set against any successful issue to our operations, and the Equinox will be passed in a turmoil of public unrest and apprehension. Nothing that is good can be predicted of the first three weeks of this month, and before the Sun enters the Balance there will be ample evidence that new factors imported into the war of nations will set the tide strongly against our shores. The country will be in arms and the greatest excitement will prevail. "Wake up, England!" will not now be said in vain.

ARE REMEDIED IN NATURE'S WAY

Why? Because Mother Seigel's Syrup is made from curative extracts of roots, barks, and leaves. Their medicinal and tonic action is just what stomach, liver, and bowels need when they are in the sluggish state which gives rise to these ailments.

By MOTHER SEIGEL'S SYRUP.

OCTOBER.

Average Rainfall 2 1/2 in. on 15 days. Add for Bristol 5h. 15m., Hull 4h. 31m., Leith 6h. 19m., and for Dublin sub. 2h. 46m., Greenock 1h. 50m., Liverpool 2h. 35m.

Predictions—

Although there are grave indications of catastrophes and losses upon the seas and most distressful interference with our foreign trade, more particularly in the last week of this month, yet the signs now point to a very peaceful attitude of our near Ally, and about the 8th or 9th overtures will be forthcoming which France will be disposed to accept, but it is to be feared that the aims of Russia will not be satisfied, and that opposition will be brought to bear from that quarter. Nevertheless our foreign relations will be so greatly improved that there is every prospect of favourable diplomatic convention in France. France will desire peace, but the destiny of our planet offers little hope as yet of her wishes being gratified. On the contrary, the 22nd of the month shows that further great disasters occur at sea with loss of life. Holland is distressed and under a heavy cloud. From this date to the end of the month there will be an unprecedented fall in the value of stocks and shares, and a panic can only be prevented by a judicious anticipation of this crisis. The Dragon will now be at the Gates of the City and St. George will steel himself for a mighty conflict. On the 28th we are smitten by the enemy in ambush. France is shaken and does not know how to act for the best.

To Relieve Obstinate Constipation

Mother Seigel's Pills made from curative herbal extracts have a gentle and stimulating action on the bowels, removing constipation without the distressing pains or griping which so often follow the use of strong mineral purgatives. After relief by the Pills, regularity can be maintained with small doses of Mother Seigel's Syrup.

Predictions—

In the political world the storm will already have broken. On the 3rd the roar of the battle will be heard. France will be shaken. Women and children will be affrighted and will suffer cruelly. Excitement runs high, and on the 10th the people are roused against the Government. On the 19th the influences portend some remission of the worst evils, and effective intervention may come from France or Rome. Secret counsels taking place about the 23rd will give intrigue its chance, and Saturn, now coming to a stationary position in the ruling sign of France, will set back the hour of deliverance for France. Both Saturn and Neptune are stationary in its ruling sign, and this can bring nothing but misfortune upon France and Rome. Nothing that can be done now by France will be effectual for good. Her hopes of a pacific agreement are dashed utterly. Internal dissensions, espionage, and treachery will confound her best counsels. Stocks and shares continue to fall in value from 22nd October to the 11th of this month, and will there be at bed-rock level. The political atmosphere is charged to the full and cannot fail to express itself in belligerent actions of the most determined character. Jupiter entering Aries again brings a tide of good fortune to England.

Predictions—

The month opens with indications of a more pacific character between the 7th and 10th of this month, from which it is to be hoped we may reap some practical results. But on the 13th of the month the passage of Mars, whose influence dominates the year now drawing to a close, again brings the military influence into conspicuous and unwelcome predominance. Affairs of war now take a very strong set in longitude 6 East, and a definite ascendancy appears to be given to the arms of England. Jupiter becomes stationary in the ruling sign of this country and brings with it progress, expansion, and good fortune. But the conjunction of Mars and Mercury in the sign ruling India will now tend to raise up a faction in the Peninsula which is liable to embarrass the Government and cause disturbances in many parts. The eclipse of the Sun in the ruling sign of India on the 24th accentuates this indication and points to a serious state of affairs in process of becoming where hitherto unity of effort and singleness of purpose have added to the ancient lustre of a newly-awakened India. These evils threaten the north of the Peninsula from the 13th onwards, and by wise concessions and temperate measures they may be avoided or greatly mitigated.

I will show you how to start a business of your own on small capital during your spare time. You can co-operate with me in the mail-order business (selling goods by post), and can have the business at your own home, and under your own ownership. If you are making £75 or £150 or £300 a year and really want to make £500 or £1,000 or more a year, I can show you how.

A Treatment which permanently cures bad legs by an entirely new method without rest, when other doctors and specialists have given the patient up as incurable, even with the aid of rest, is something of a novelty, even in these days of medical marvels.

This new method is known as the Tremol method of treating bad legs, and by it you are cured without a particle of pain, without a moment's rest, without neglecting your work for one single instant, and without the possibility of a failure, because this new method permits of no relapse, and you are cured to stay cured for all time. But this is not all. Every form of bad leg succumbs to this new treatment. Varicose ulcers melt away, and, combined with varicose veins, disappear. Eczema vanishes. Swollen and painful legs become painless. Diseased bone comes away. Tubercular bone and ulcers heal up. Inflammation and irritation become things of the past.

Why is this? Because Tremol treatment is unlike all other treatments, for it attacks and removes the cause, and if your case is taken in hand—for if it is incurable it will not be accepted—it will be separately and specially prescribed for and attended to until your cure is complete, and while you are applying the treatment in your own home. This no other treatment even pretends to do, for in the other so-called treatments the same thing is supplied to everyone alike, and there it ends.

A large illustrated book, giving full particulars of this powerful remedy, is sent free of all charge, and a legal guarantee to cure is sent with each book. This publication teems with sound advice, and contains much valuable information, and if you are a sufferer it is sure to be the means of bringing about your speedy and permanent recovery, even if doctors, hospitals, and specialists have failed to help you. Early application for the book is necessary, as only a limited number of free copies is to be distributed.

Thousands praise the day they read the book. In it you will find what you have never had before—the opportunity of having your legs permanently made well, for by this new method you can cure yourself in your own home without pain, rest, operation, relapse, or failure. This is not a chance to be missed, and we advise readers of "Old Moore's Almanack" to write at once to the National Infirmary for Bad Legs (Ward L.H.), Great Clowes Street, Broughton, Manchester, describing their case, and the book will then be sent gratis and post free.

THE YEAR OF THE FLAMING SWORD.—1916.

THE FOUR QUARTERS.

The intensified influence of the planet Mars raging in the sign Leo will bring a year of great conflagrations, drought, explosions, lavish expenditure on arms and munitions of war, and a great surge of military enthusiasm will move over France, who will fight for the liberty of its people as well as for the freedom of nations. The Red Lion is rampant; the flaming Comet displays its dread message in the form of a vast scimitar over the skies. The blood of the martyrs comes up from under the altar of self-sacrifice, crying: "How long, O Lord, how long?" But the end is not yet. The fires of human passion will yet burn fiercer than ever, springing forth into action in a thousand directions, in a thousand forms of destruction. The hour of the builders has not yet arrived. Deadly fevers will claim their hundreds of thousands. There will be burnings upon a vast scale.

The *Winter Quarter*, which opens on 22nd December, 1915, and extends to March, 1916, will witness great perturbations in Holland, and the stress of the times will be keenly felt in the Netherlands. Floods and siege conditions appear to be responsible for much suffering among the people of that country. France is affected by war conditions and a phase of intense excitement will pass over the Gallic country. But the worst effects of the planets will be directed against the region of the Black Sea, where Saturn and the Moon are conjoined to render that name a veritable password. In India, about 85 East longitude, there will be belligerent feeling and intense excitement. In the N.W. Province there will be insurrection. Afghanistan and Beluchistan are disturbed. In our own country the 16th January will bring a financial revelation. The Chancellor of the Exchequer will have a difficult problem to face. Huge deficits will have to be subscribed. Naval Estimates will reach unprecedented figures. The 16th February shows plots against the authorities of which due notice should be taken. The 27th February shows a fracture in one of the Services and grave danger of insurrection and lawlessness. The 15th March will bring a dangerous onslaught from incendiary plotters and fires will do great damage. The enemies of the country are active and malevolently effective.

The *Spring Quarter*, which opens on the 20th March and extends to 21st June, is fraught with conflicting indications. The war will be prosecuted in foreign countries, and notably in France, where Mars is still seen to be flaming and threatening violence. The interests of France and Russia run somewhat counter to one another at this period, and it is to be hoped that intrigue will not be effectual to produce a breach of the entente as is designed. At home the Services will be pacified and will render themselves creditably. The Government will be exceptionally weak and may fall. Portuguese affairs appear to offer some menace. Deaths on the high seas from disaster, shipwreck, and drowning will be numerous. Holland will be the scene of great distress. British interests prosper despite financial difficulties. A balance-sheet will be demanded by the public. Electric lighting and other electrical services will now show a tendency to strikes and insurrection. Our foreign trade will be seriously menaced. Explosions and fires will assail the first line of defence. Plots and hidden dangers, submarine assaults and aircraft will be a menace to the country in the carrying out of its foreign trade. The younger generation will be greatly honoured and feted, and many benefits will accrue to the upgrowing populace. The Black Sea still shows an area of extreme political danger. Many dangers assail us in the Atlantic Ocean, where many wrecks occur about the 27th May. This appears to be a day of great disaster and mourning. About the 26th April there are changes indicated in our Alliances, and also some threat of an adverse vote on Finance against the Government. On the 14th June, or near date, it behoves all those responsible for our maritime safety to be on their guard as submarine dangers are then pressing us closely. The Lion is the victim of strategy. In longitudes 20, 26, and 58 West marine dangers are indicated. The Quarter will be marked by great disasters on the ocean.

The *Summer Quarter* opens on the 21st June and extends to the 23rd September. During this time affairs of State will be improved by a Dutch Alliance. Many old feuds will be consigned to oblivion, new friendships will be cemented. But also great and deadly enmities will arise. Turkey will be the scene of terrible military operations, and deadly conspiracies will tend to complicate matters and produce violent reprisals. There will be great destruction of shipping by fire and the ancient ports of the Levant will witness strange events. Holland will witness a great bereavement. There are signs of an extensive inundation. Coasting vessels around the British Isles will suffer many affrights and assaults. Incendiary fires will become frequent and occasion much mortality and destruction of property. A Queen goes into the Great Shadows. Royalty is in mourning. Machinations and plots are rampant in France. America shows evidence of extreme irritation and threats of reprisals are heard in diplomatic circles. The Balkans are encarnadined and Turkey is under the delirium of a war fever which threatens its political life at all points. At the end of June there are dangerous developments in the political world. A new area of war may be the result. In the early days of August a great disaster is the occasion of widespread sorrow and mourning. Strikes occur in the end of August, and during the early days of September the destruction of vessels on the high seas will cause alarm. In the Red Sea and on the East Coast of Africa disasters cause great loss of life. The Persian Gulf is the centre of a great plot against our interests. A ferment of insurrection affects the region of Beluchistan and Afghanistan. Northern India is affected with strong military movements and great unrest is experienced in the Mohammedan centres of Indian commerce. In July the Powers will deal mightily with the Hohenzollern autocrat.

HOW TO GET RID OF YOUR GREY HAIR

A Simple, Sure, Harmless Treatment which can be used at Home with Complete Success. Age no obstacle.

GREAT DISTRIBUTION OF 10,000 Special TRIAL BOTTLES FREE

I am a woman who belongs to a prematurely grey-haired family. My father was grey before he was 30, and two of my brothers as well as my sister became grey early in life. Before the age of 25 I developed grey hairs, which became quite embarrassing to me—socially and also in business. I lost three good positions for no other reason than my fading hair. The greyness increased with alarming rapidity, and at 28 I looked like a woman of 45. One day I was seriously thinking of buying one of the many Grey Hair Restorers that are extensively advertised, when I casually mentioned the subject to

an acquaintance—a scientific man, and as I afterwards learnt a great student of the Chemistry of the Hair. He strongly advised me to have nothing whatever to do with these concoctions. He pointed out that such preparations eventually ruined the hair, and in the meantime rarely deceived, even the casual observer. He suggested that I try a formula that he had perfected after a considerable time,

which, by a certain chemical action on the pigimentary colouring cells, restored the hair to its natural colour. In reply to my inquiries he assured me that the formula was not only absolutely harmless, but would develop a strong and beautiful growth of hair. My friend wrote out his prescription, which I had made up, and after following the instructions for a few days, I was surprised and delighted to find my hair becoming richer and darker in tone. The re-colouring process continued until after some few weeks my hair actually once again possessed the natural shade of my girlish days. Since then I have been inundated with inquiries from friends and also persons unknown to me, who came to hear of this wonderful preparation. Having become convinced that I have found a remedy of extraordinary merit, and which is quite harmless, I have resolved to offer it for sale, as I am certain from my own personal experience that it will prove an inestimable boon to any man or woman who finds Grey Hair to be the same serious handicap it was to me. It is a Guaranteed Genuine Preparation, and I offer a reward of £100 if it will not Re-colour Grey Hair to Original, Natural Shade.

I have put on one side 10,000 special TRIAL BOTTLES, which I shall distribute, free of charge, to the readers of this almanack, while the supply lasts.

Simply write your name and address plainly, and enclose 2 stamps for postage, etc., and I will send you the SPECIAL TRIAL BOTTLE in a plain sealed cover. Address—Mrs. MARY K. CHAPMAN, Suite 493, 8, Mortimer Street, Regent Street, London, W.

"I CANNOT SLEEP!"

The man or woman from whom is wrung this bitter cry is in grave danger. If the sleeplessness be only partial it may, and, if neglected, will, develop into acute Insomnia. It is during sleep that Nature replenishes and rejuvenates the nerve forces. If Nature is denied that restful condition the whole system is laid open to serious troubles.

SHATTERED NERVES

are an early symptom—a solemn warning that something must be done. Neglect that warning and illness—perhaps mental affection—is not far off. Drugs won't cure; they may relieve, but not permanently. Medicine is useless. Nature wants SLEEP, and wants it produced naturally. Now—

"THE GIFT OF SLEEP"

is the title of a little book dealing exhaustively with a sane and proved treatment—without drugs or medicine—which in a natural, simply explained manner brings blessed sleep. This little book contains an offer of Sleep to the Sleepless, and a promise of Healthy Repose. It is FREE, quite free, and a post card will bring it today. THE YEAR OF THE FLAMING SWORD—1916. (Continued from page 22.)

The Autumn Quarter brings Mars to the Ascendant of the West of Europe, Venus and the Moon to the meridian, and Uranus to the lower angle; Jupiter being on the western angle in opposition to Mars. The greatest outbreak of the war fever that we have yet seen will take place during the Quarter, and about the end of September the cry "To Arms! To Arms!" will be heard throughout the land. This war wave will be incessant till the middle of December, and will then begin to abate. Peace overtures will be much favoured by France during the first fortnight of October, but Russia will withstand such a treaty. Great naval engagements will take place, and our foreign trade will be reduced as yet it has never been. Spoliation and destruction are let loose on the high seas. There will be great shipwrecks. The Government is greatly assailed by the Labour representatives, and strikes will be numerous. Agriculture will suffer a severe dislocation of its interests. Recriminations will be violent and frequent. In the Midlands there will be serious contests between master and man. The Government will be embarrassed. War will rage high on the Continent. In the North Sea and the Mediterranean there will be naval engagements of a fierce kind. The people of this country will be afflicted by a morbid fever which will cause many deaths. India will be stirred by strong martial passions. In Siam and the Malay Archipelago there will be widespread disasters due to great tidal waves and submarine upheavals. In China the Government will be faced with serious discontent, and insurrections will follow. Zymotic diseases will be prevalent in November in many parts. Our foreign relations will be complicated by nefarious plots and schemes and by the insistent actions of spies. Diplomatic relations are now greatly strained, and a weakening of the main objective of the Great War may tend to produce serious complications among the Allies.

DISEASES OF CATTLE, &c., AND THEIR REMEDIES.

CALVES.—SCOURING.—Farmers may rely on the following mixture. Always keep it handy; it will do for sucking animals:—

Prepared Chalk 4 ounces.
Laudanum 1 ounce.
Water 1 pint.

Give two or three tablespoonfuls, according to size of the animal, two or three times a day. See list of books on Cattle, etc.

HOOSE, OR CATARRH.—Good nursing, bleeding, and then a dose of Epsom Salts, with half an ounce of ginger in it.

PIGS.—For the numerous diseases of pigs, the following recipe may be employed: Half a pound of sulphur, half a pound of madder, quarter of a pound of saltpetre, two ounces of black antimony. Mix these together, and give a tablespoonful night and morning in the food.

SHEEP.—FLY.—Fly powder: Two pounds of black sulphur, half a pound of hellebore, one ounce of black oil of hartshorn; mix them together, and sprinkle the sheep from head to tail with a dredging box.

FOOT ROT.—One drachm of verdigris (acetate of copper), one drachm of blue vitriol (sulphate of copper), one drachm of white vitriol (sulphate of zinc), two ounces of water, two drachms of nitric acid, two drachms of butter of antimony. Pare away the horn, and apply the lotion with a feather to the part affected.

HORSES.—COUGHS OR COLDS are best treated by cold bran mash, with half a pound of linseed and one ounce of saltpetre in each mash. See our list of books on Horses.

Lift full-grown winter onions. **HERBS:** Cut all that are in flower, as lavender, tansy, vervain, foxglove, and meadow-sweet. **AUGUST.**—After harvest get in stubble turnips, trifolium mustard, rye. Seeds for permanent pastures may be sown now on a clean stubble. Cabbage (drumhead), for planting next year, sow now. Flocks require dipping. Put rams to ewes for lambing in January. **GARDEN.**—Sow early cabbages and parsley for succeeding year; also spinach, broccoli, and cauliflowers to stand the winter; earth celery; hoe and thin turnips; transplant broccoli, savoys, and cauliflowers. Propagate kitchen herbs by slips. Sow seeds of bulbous flowers in pots. **SEPTEMBER.**—Thatch and trim corn ricks; plough stubbles. Apply lime to stubbles; also manure on clay lands and to meadows. despises the stuff, and nothing can induce him to drink it. Any wife, mother or friend can give these preparations secretly in coffee, tea, milk, whiskey, beer or other drink. They are tasteless and truly wonderful in their action. Do not confuse them with numerous worthless things that are being advertised.

Mrs. Moore, Govan, writes: "I cannot sufficiently thank you for what your secret Treatment has done for my husband. It means so much to me to have him freed from this curse of drink."

My Book, *Confessions of an Alcohol Slave*, tells how I was a heavy drinker for many years and was marvelously saved; it explains how the same joy can come to every other drinker. My method is the most successful in the world. It is the lowest priced absolutely guaranteed Treatment. Often succeeds after all other fail. Legions of Testimonials from persons willing to have their names and addresses published, so you can call or write to them. I will send my book, in plain wrapper, post paid, absolutely free. Four teaspoonfuls are equal to one tablespoon. A medium-sized teaspoon contains about a drachm. Eight tablespoonfuls, one half-cup or one half-gill. Four tablespoonfuls, one wineglass or one-fourth cup. One quart of flour (well heaped) weighs one pound. Soft butter, the size of an ordinary egg, weighs one ounce. Two teacupfuls of soft butter (well packed) weigh one pound. Two teacupfuls of coffee (well heaped) weigh one pound. Two tablespoons of powdered sugar or flour average one ounce. One tablespoonful (well heaped) of granulated coffee or best brown sugar equals one ounce.

Onions are almost the best nervine known. No medicine is so useful in cases of nervous prostration, and there is nothing else that will so quickly relieve and tone up a worn-out system. Onions are useful in all cases of coughs, colds, and influenza. Eaten every other day, they soon have a clearing and whitening effect on the complexion. Old Moore's Blood Pills, 1s. 1½d. and 2s. 9d., bring health, beauty, and good complexion.

To keep your pantry free from beetles, sprinkle **Keating's Powder** on the shelves overnight, and for the prevention of moth in blankets, woollens, and winter clothing, these must be dusted with **Keating's Powder** before being put away.

Glasses should be washed in a wooden vessel, in which put a sufficiency of cold water to cover them; rinse them in fresh cold water; wipe off the wet with one cloth, and finish them with another. Read list of books at end of Almanack for housewives.

The best lotion for cracked lips is to mix an ounce of glycerine with two ounces of rose water and one drachm of borax, and apply several times a day, or use Old Moore's Ointment, 1s. 1½d. This is a household necessity, and often saves trouble.

Paraffin possesses great cleansing properties. It is invaluable for sponging cloth or woollen fabrics. If, after being sponged, the articles are hung up in a thorough draught, the disagreeable odour soon passes away.

Eggs contain a large amount of nutriment in a compact, quickly available form. Eggs, especially the yolks, are useful in jaundice. Beaten up raw with sugar, they are used to clear and strengthen the voice. With sugar and lemon juice the beaten white of eggs is used to relieve hoarseness, or Old Moore's Cough Balsam, 1s. 1½d. and 2s. 9d.

Turpentine is good for cleansing all varnished furniture, and also to clean out musty galvanised and other iron sinks. Grease spots on wall paper may be removed by putting clean blotting paper over them and pressing it with a hot flat-iron.

A teaspoonful of paraffin added to the soap and water with which floors are washed will greatly help in making them clean, with a considerable saving of soap.

Fresh, ripe fruits are excellent for purifying the blood and toning up the system. As specific remedies oranges are aperient. Always keep Old Moore's Family Pills, 1s. 1½d. and 2s. 9d. Emigrants abroad write for them, knowing their value.

A ham for boiling should be soaked overnight in tepid water, then trimmed carefully of rusty fat before putting on the fire. Cookery Book, 1s. 3d., always useful.

If boiled potatoes are done a little too soon, place a towel over the kettle instead of a cover. Tomatoes are a powerful aperient for the liver, a sovereign remedy for dyspepsia and indigestion. If travelling, Old Moore's Family Pills, 2s. 9d.

Silver and plated ware washed in the following will, when rubbed dry, shine with silvery whiteness. Take one ounce each of cream of tartar, common salt and alum, and boil in a gallon or more of water.

Everyone should eat fat meat, fat bacon, and plenty of butter. It prevents consumption, and gives long life with good health.

Messrs. Masters, of Rye, supply silver and plated goods, and their world-famed workman's "Veracity" watch, for 30s. on easy monthly terms, is the best.

Carrots for sufferers from asthma are beneficial, and a lump of sugar saturated with vinegar will cure hiccoughs. See health books in list at end.

Celery is valuable as a food for those suffering from any form of rheumatism, for diseases of the nerves, and nervous dyspepsia. Try Old Moore's Nerve Pills, 1s. 1½d. or 2s. 9d.

For very tarnished articles use wet powdered magnesia, and then dry. Always wash with a sponge and warm soapsuds after using, and wipe dry with a clean soft towel.

MARRIAGE: BEFORE AND AFTER.

**This Plain-spoken New Work Reveals
Secrets that Every Adult Should Know.**

POST FREE.**

"Marriage: Before-and After" is a splendid piece of work, which every man or woman already married or contemplating marriage should read.

Scorning all prudish notions of unhealthy modesty, the author deals with Marriage in the most comprehensive manner, giving to his readers invaluable information, hints, and secret advice impossible to obtain elsewhere.

Men and women already married should take steps to ascertain the very best course to pursue after marriage. They cannot find these things out for themselves. They must rely upon the experience of others, experience always difficult to get on so delicate a subject as this.

"Marriage: Before-and After" tells you all you want to know about these most important matters.

It contains the accumulated secrets of the best brains in the world on this question, secrets hitherto unobtainable except in very expensive medical works.

It shows how want of knowledge is responsible for untold matrimonial misery, and how ignorance has led to unspeakable suffering. It helps you to avoid all these troubles.

Skillfully the author guides his readers past the treacherous snares and pitfalls, and shows

HOW TO INCREASE MARITAL HAPPINESS AND ENJOYMENT.

He explains how the result of following certain rules is seen in better home life, healthier offspring, and enhanced happiness.

You are shown how to guard against those habits which destroy love, and those body-blighting sins of which married people know so much.

For obvious reasons the complete contents of this book cannot be summarised here. In the following short synopsis some of the most important and valuable parts of this work are necessarily left out. But enough remains to give you some idea of what this great book is like, and by sending to the address below you can read the whole work from first to last in your own private time.

Here is just the bare outline of what this book is:-

- CHAPTER I.—The future of the child.—Dreadful ordeals.—Purpose of Author.
- CHAPTER II.—Age at which to marry.—Result of early and late marriage.—Unripe parents.—What a physician says.—Disparity in ages.—Religion and marriage.—Law of choice.—Physical attributes in parents.—Love.—False love.—How not to be misled.—Women who break hearts.—Advice.—When not to marry.
- CHAPTER III.—Amativeness, its use and abuse.—Wrong habits.—Concealment.—After marriage.—Useful information for the married.
- CHAPTER IV.—Important Physiological Facts.—Hints for those who wish to become parents.—The father's influence.—Rules for women, etc. (A most valuable chapter this, which all married people ought to read).

- CHAPTER VI.—The law of the Husband.—The husband's duty, etc.
- CHAPTER VII.—The law of the Wife.—The wife's duty.—Marital Rights, etc.

This wonderful book ought to be read by every young man and woman engaged to be married, as well as those who are already married.

Seldom have delicate subjects been dealt with in so sensible, uncompromising a way.

There is no shuffling or beating about the bush, but a straightforward explanation of matters usually kept secret, which gives the most valuable assistance to all married couples and to all who are hoping to shortly merge their destinies into another's.

THE SECRET OF MANHOOD.

**Things the Doctor Knows but Does Not Tell.
Every page of this Remarkable Book Lifts
the Curtain on Human Nature's Most
Hidden Secrets.**

In plain language the author deals with one of the greatest evils that beset our young men, which, if not eradicated, will sap the fibre of our people.

The task of dragging these loathsome habits to light is one from which many would have shrunk through fear of the prudery of so-called leaders of public opinion. But conscious of the high mission to which he has devoted his life, the cause of Personal Purity, the author has accomplished his task in this book fearlessly and well.

The facts are well known to medical authorities. The doctor knows but does not tell. Despite the objections of the most modest, the author, with one bold movement, has lifted the curtain on Nature's Hidden Secrets.

For obvious reasons the important contents cannot be described here. You must buy "The Secrets of Manhood" yourself and follow the advice given.

The author shows the awful effects of the secret vice on mind and body, and, most important of all, he shows how evil habits may be broken, how by following the directions given in this book the unhappy slave to secret vice can regain his strength, liberty, vitality, and manhood.

A Terrible Case of Eczema. Felt she could tear herself to pieces.

Mrs. Lusecombe, of Wootton Street, Bradford, suffered terribly from acute Eczema in both her hands and feet. The itching was so intense she felt as if she could tear herself to pieces. Carbozone was applied and at once the inflammation began to subside, the soreness and intense itching ceased, and after a time a new layer of skin formed. There was more than a shovelful of old diseased skin collected which came from her hands and feet.

Mrs. Wilkinson, Hawthorne Lodge, Saunders Street, Southport, writes: "Please send me another 4s tin of Carbozone. It has healed up the awful cracks on my hands splendidly, and cleared away all traces of Eczema entirely."

Sufferers from Bad Legs, Foul Sores, Eczema, Ulcers, or any chronic or acute form of Skin Disease should remit 2/9 for a box of Carbozone. It causes Ulcers, Old Sores and Bad Legs to take on healthy action immediately, subdues inflammation, relieves itching, soreness and pain, and never fails in the most obstinate cases. Don't go on suffering, send for a box of Carbozone to-day: it will give you speedy relief. Don't be circled with testimonials free. Address: CARBOZONE CO., 60, GREAT RUSSELL ST., BRADFORD, YORKS.

The Magnetic Girl

How She Compels Others To Obey Her Will.

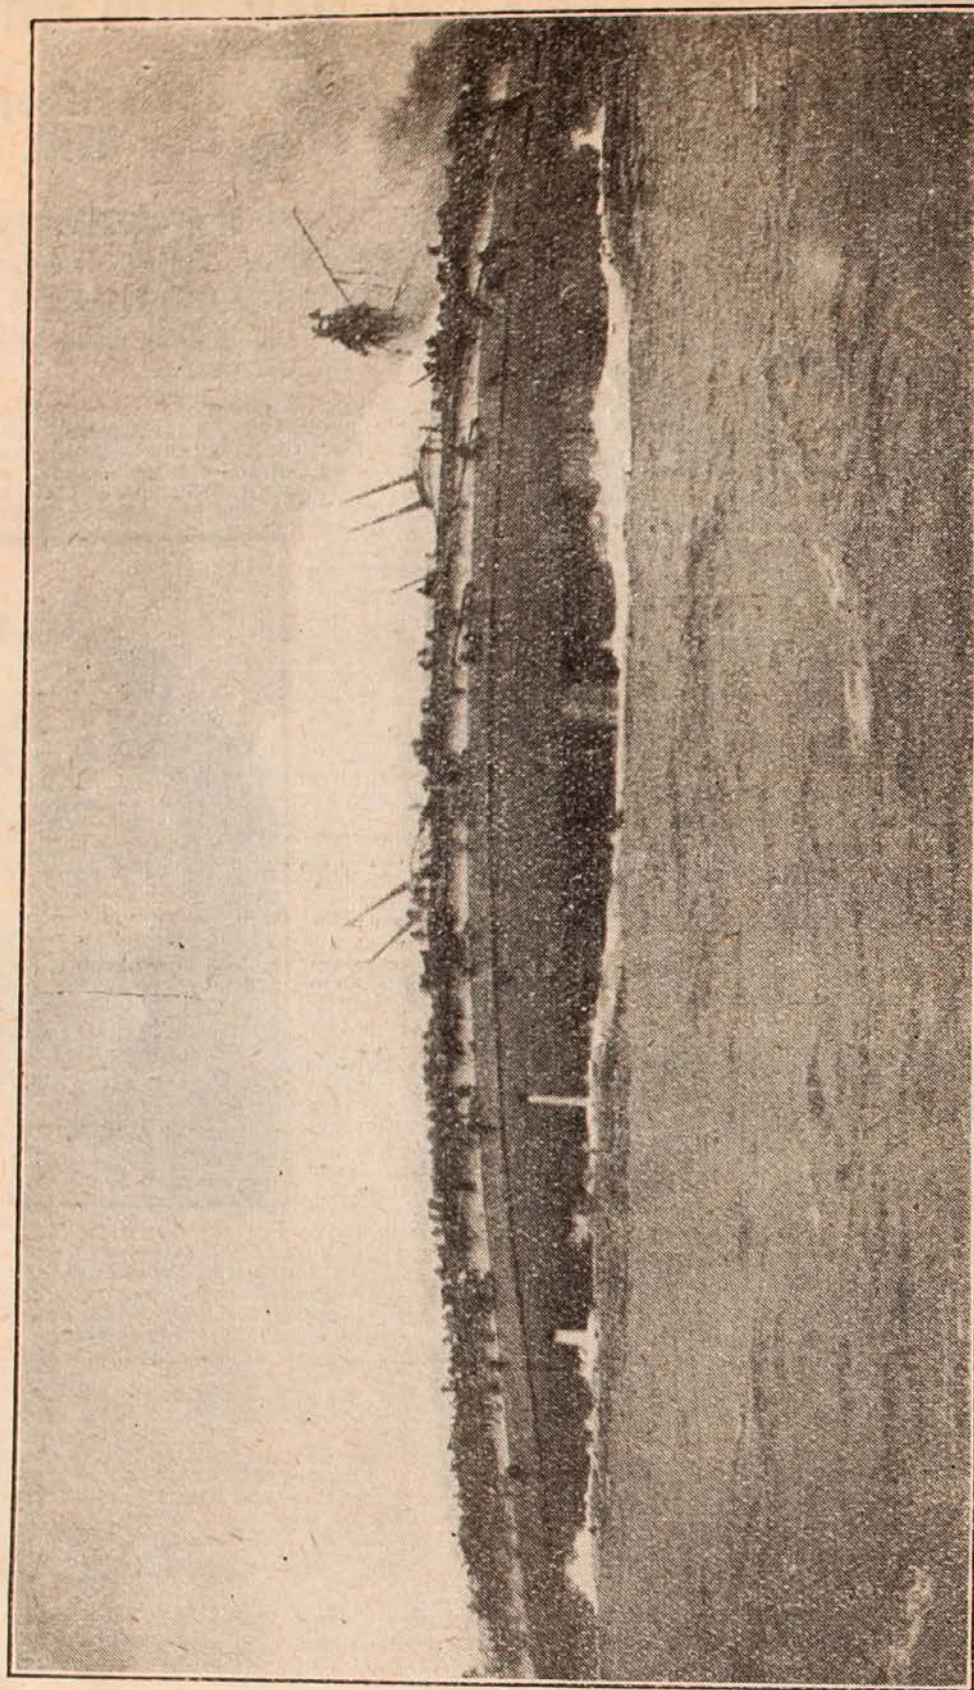

100,000 Copies of Remarkable Book describing peculiar Psychic Powers to be distributed Post Free to readers of Foulsham's "Old Moore's Almanack."

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, call it what you will, can surely be acquired by everyone, no matter how unattractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of the new book entitled: "The Key to the Development of the Inner Forces."

The book lays bare many astounding facts concerning the practices of the Eastern Yogis, and describes a simple though effective system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to quickly and accurately judge the character and disposition of an individual; how to cure the most obstinate diseases and habits without drugs or medicines; even the complex subject of projecting thoughts (telepathy) is explained. Miss Josephine Davis, the popular stage favourite, whose portrait appears above, declares that Prof. Knowles' book opens the door to success, health, and happiness to every mortal, no matter what his or her position in life. She believes that Prof. Knowles has discovered principles which, if universally adopted, will revolutionise the mental status of the human race.

The book, which is being distributed broadcast free of charge, is full of photographic reproductions showing how these unseen forces are being used all over the world, and how thousands upon thousands have developed powers which they little dreamed they possessed. The free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to do so may enclose 2d. (stamps of your own country) to cover postage, etc. All requests for the free book should be addressed to: National Institute of Sciences, Free Distribution Dept., 154B, No. 258, Westminster Bridge Road, London, S.E. Simply say you would like a copy of "The Key to the Development of the Inner Forces," and mention Foulsham's "Old Moore's Almanack."

COMPLETELY PARALYSED.

**Leg so Black and "Dead" that amputation was advised.
Cured by Dr. Cassell's Tablets, the all-British Remedy.**

Mrs. Hopkins, Eastbourne.

The cure of Mrs. S. M. Hopkins, 1, Beale Cottage, Lottbridge Road, Hampden Park, Eastbourne, is one that proves Dr. Cassell's Tablets to be above and beyond any ordinary medicine. Interviewed recently, she said:—

"Quite suddenly one day my leg gave way under me, and from that time I was paralysed. I had to be lifted in and out of bed, and as I was placed so I lay. Medical and hospital treatment did no good, though massage, electricity, and everything possible were tried. My leg was to all appearances dead, almost black, and with no feeling at all in it. People thought it should be taken off, but I wouldn't agree.

**"A Dream suggested
Dr. Cassell's Tablets to me.**

"I dreamt that I was told to take them, and I seemed to see myself well and active as ever. After taking the tablets for a time I found I could move my foot. Soon I was going about on crutches, and then one day I put aside my crutches, and walked out into the streets without any support at all. Now I am ever so well and active."
